

SAY NO TO INCINERATION in NORTH YORKSHIRE

NORTH YORKSHIRE NEEDS YOUR HELP

- North Yorkshire County Council and York City Council want to spend £1.4 billion of your money to fund 25 years of waste incineration
- Around 260,000 tonnes of waste will be burned every year
- An industrial plant the size of Wembley stadium will be built in the heart of rural North Yorkshire!
- NYCC plans to sign this off on 15th December 2010 unless we persuade them not to.
- Help save York & North Yorkshire – re-cycle, reduce, re-use and re-think. Demand it!

WHAT CAN YOU DO?

The plant is to be built at Allerton Quarry, 7 miles from Harrogate and 4 miles from Knaresborough. It will process 320,000 tonnes of waste each year. Around 80% of this will be incinerated in this facility.

All over the UK and Europe, Councils have seen recycling levels suffer when incinerators are built. The Council will be locked into a contract for 25 years to provide waste for burning. Other Councils in the UK have been able to rule out incineration for their waste by increasing recycling, reuse and composting.
